- 1** CENTERLESS™ LATERAL SHIFT
Get up to 16" of post installation lateral shift - 8" left/right of uprights.

This industry-first feature allows post-installation fine-tuning of height and leveling by inserting an Allen key into the ports at the top of the wall plate uprights. Adjustments are applied to the entire configuration, not just the TV.

Provides effortless tilting by using the center of gravity to balance the screen – no tools necessary!
