

# FUSION™ VIDEO WALL SOLUTIONS

## VIDEO WALL MOUNTING

Easily configure dynamic flat panel video wall solutions up to 3 screens tall with Chief's FUSION mounting kits. FUSION is a one-of-a-kind flat panel display mounting system that solves the toughest installation challenges. When paired with a video wall application, FUSION provides unbeatable installation features to save time and money.

### STEP 1

Select your mount based on the flat panel screen size. See chart below.

### STEP 2

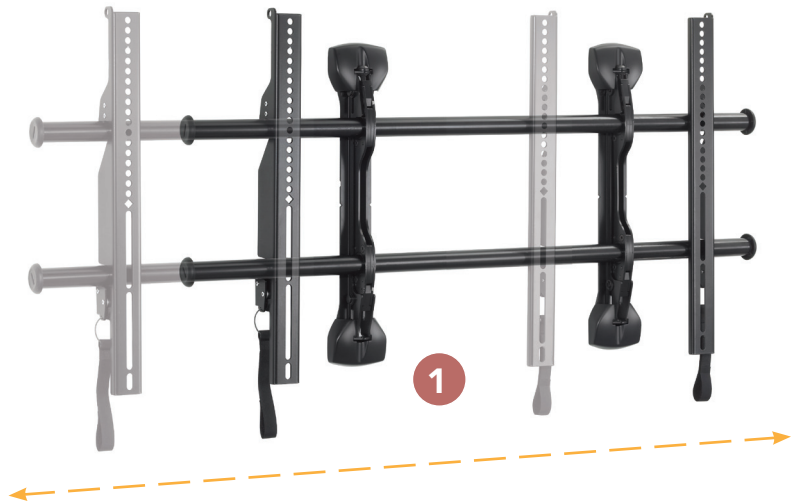

Order 1 mount per screen, video walls can be up to 3 screens tall.

### STEP 2

Follow installation guide on the reverse side for quick and easy installation.

## FUSION Series Fixed Mounts with ControlZone

| Model TV Screen Size Range | Weight Capacity (single stud, dual stud) |
|----------------------------|--|
| MSMU 26 - 47"              | 75 lbs (34 kg)<br>125 lbs (56.7 kg)      |
| LSMU 37 - 63"              | 200 lbs (90.7 kg)                        |
| XSMU 55 - 75"              | 250 lbs (113 kg)                         |

1

### CENTERLESS™ LATERAL SHIFT

Get up to 16" of post-installation lateral shift - 8" left/right of uprights. Perfect for video walls to ensure screens can easily slide together for a seamless installation. Allows for quick and easy screen removal by sliding screens apart.

2

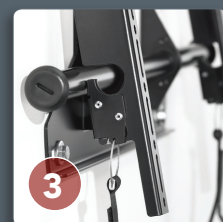

### CONTROLZONE™ HEIGHT & ROLL ADJUSTMENT

This industry-first feature allows post-installation fine-tuning of height and leveling by inserting an Allen key into the ports of the wall plate uprights. Adjustments make creating a seamless video wall installation easy.

3

### CLICKCONNECT® TOOL-LESS LATCHING

Hear an audible click when the screen safely engages with the mount. Use the built-in cable stand to gain easy access under the screen. Adjustable straps assist in screen removal.

## Mounting Guide for Video Wall Installations

### STEP 1

Install bottom mounts with height adjustment screws pointing downward and ControlZone height adjustment screws completely lowered.

### STEP 2

Install middle mounts exactly 1 screen height above the first row. Make sure ControlZone adjustment screws point upward and are at a centered height.

### STEP 3

Install top mounts exactly 1 screen height above second row. Make sure ControlZone adjustment screws point upward and are at the highest adjustment.

### STEP 4

Install screens working from bottom up.

### STEP 5

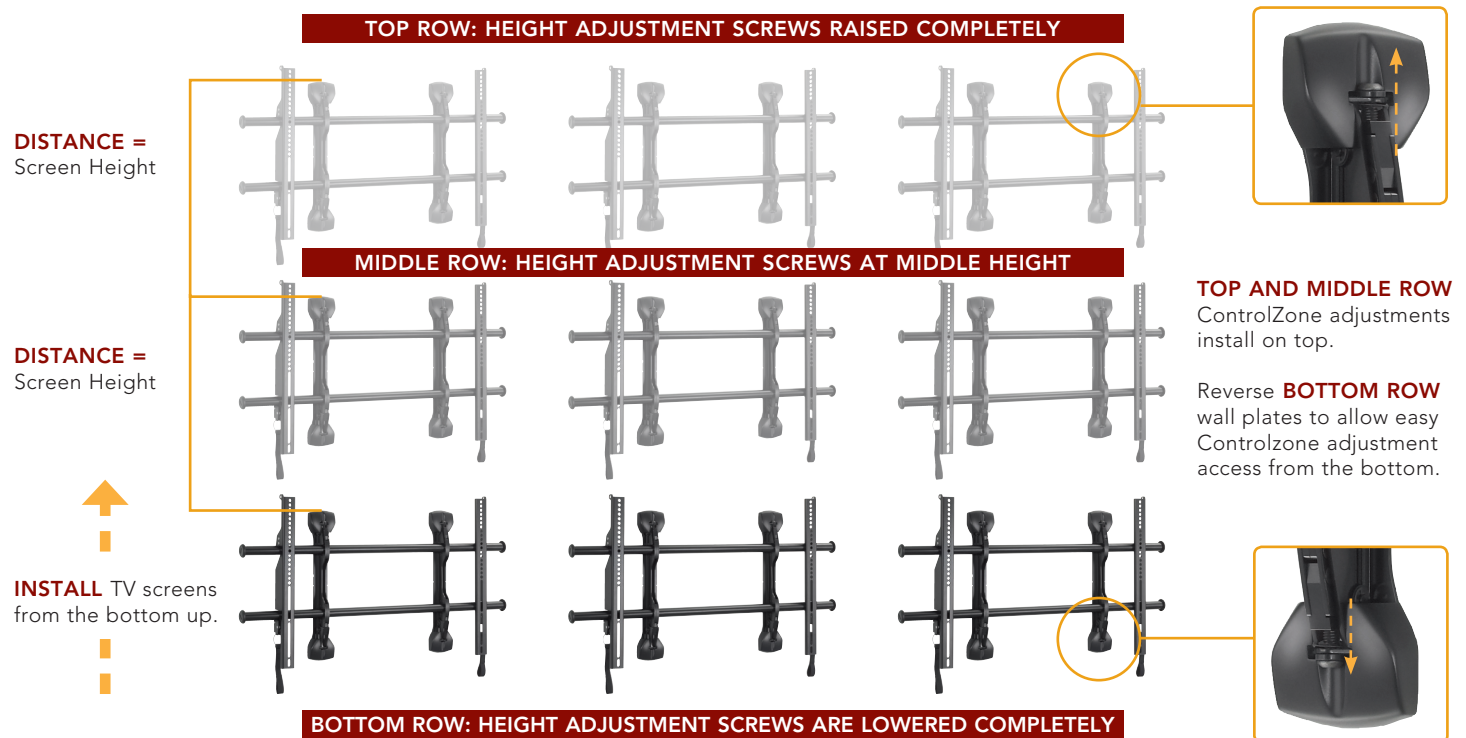

Horizontally slide screens together.

### STEP 6

Using the ControlZone height adjustment screws, lower top screens down and bottom screens up.

### TIPS

- ClickConnect straps can be lengthened for easier screen installation and removal
- Removal of screens must be done from top to bottom
- Please follow mount installation instructions for specific hardware and installation techniques
